EDUCATION

Florida State University | Tallahassee, FL

Expected: May 2028

Bachelor of Science in Mechanical Engineering; Minor in Mathematics, General Business

GPA: 3.44

Technical Skills: SolidWorks, Siemens NX, Fusion 360, CATIA, 3D Printing, C/C++, MATLAB, Microsoft Office

Extracurricular: Theta Tau Professional Engineering Fraternity, Society of Hispanic Professional Engineers (SHPE)

Certifications/Honors: Six Sigma Green Belt, HSF Scholar, Community Foundation Scholar, IB Diploma Recipient

Fluent Languages: Spanish, English

EXPERIENCE

Heatcraft Worldwide Refrigeration | Tifton, Georgia

August 2026 - Present

Manufacturing Engineering Intern

- Designing a weld fixture in **Solid Edge** to locate and secure a drain basket during welding, validating fit through **3D printed** prototypes on production floor.
- Partnering with line operators & manufacturing engineers to identify process improvement across safety & quality

Danfoss Turbocor | Tallahassee, Florida

May 2026 – August 2026

Mechatronics Engineering Intern

- Performed CAD modifications & engineering updates on VTX compressor components using **Siemens NX** & **CATIA** to support design change and manufacturing requirements
- Created technical documentation for component defects and inspection findings, supporting quality analysis
- Built and tested compressor assemblies, working hands on with precision mechanical components and bearings

National Aeronautics and Space Administration (NASA) | Remote

September 2025 – Present

Project Manager - Proposal Writing and Evaluation Experience Fellowship

- Led an **11-member** multidisciplinary team to win a top-ranked NASA planetary mission proposal, earning **\$10,000** in NASA funding against **40+** teams, delivering a full systems-engineering package in 15 weeks
- Designed a swarm robotics framework for autonomous planetary exploration while leading weekly syncs with **3** sub-team leads to track task progress, consolidating findings into monthly status reports for NASA representatives

Exoskeleton Systems for Diver Assistance | Tallahassee, Florida

September 2025 – May 2026

Mechatronics Research Assistant

- Developed **SolidWorks** models of early mechatronics concepts to support diver station-keeping and fine motor tasks, with prototyping and testing in upcoming phases
- Initiated literature review of underwater robotics/mechatronics systems to identify design opportunities for a diver assist exoskeleton, contributing 10+ hrs/week with a **4-member** team

PROJECTS

Animatronic Eye | Boca Raton, Florida

May 2026

Self-Project

- Built & assembled an **Arduino**-based animatronic eye prototype with **2** sensors & **6 3D printed** components
- Tested & troubleshooted mechanical, electrical, and software components through **3** prototype iterations

Stirling Engine | Tallahassee, Florida

January 2026 – March 2026

Lead Engineer

- Designed & modeled a full CAD assembly of a Stirling Engine which consisted of **20+** components
- Conducted velocity, acceleration & force analysis on final design in **SolidWorks** obtaining relevant simulations
- Created engineering drawing used to create a prototype using lathe, mill, & drill press in **machine shop**

LEADERSHIP

Southern Scholarship Foundation | Tallahassee, Florida

August 2024 – May 2026

House Cleaning Supervisor

- Supervised **17** residents in a communal living environment, ensuring timely & satisfactory completion of daily and weekly chores in common areas while providing direct feedback to residents
- Addressed recurring cleanliness concerns at **4** full house meetings per semester, resolving conflicts and ensuring accountability & maintaining a respectful living environment
